This astronomical image displays a field of galaxies in the R+F660+I filter. A prominent, bright green source is located near the center. The image is overlaid with a coordinate grid. The horizontal axis represents Right Ascension (RA) in J2000, with labels at 0^h43^m12^s, 10^s, 08^s, and 06^s. The vertical axis represents Declination (Dec) in J2000, with labels at -73°07'50", 08'00", 10", and 20". A scale bar at the bottom right indicates a length of 20 arcseconds. The text 'R+F660+I' is positioned in the upper left corner.
